Hi Wendy,
We do not have an MOU with DENR. The only thing I can think they might be referring to are the interagency agreements we did with USGS and LANL to work on the RAREs.

Valois,

Do we have an MOA/MOU for the Dewey Burdock permit? I wasn't aware.

Thanks, Wendy

I believe I have seen some traffic around a MOA/MOU regarding Region 8's Uranium Mining Class III Permit. I'm not running point, but R4 ORC is attempting (low priority post-reorg) to work on one with Ky's Division of Mines regarding our Class V review for mine backfill, but we have nothing final. My suggestion is to check with Region 8's UIC/ORC for an actual completed document.

Hi,

Do you have any examples of MOU's for completing ESA and NHPA when multiple federal agencies are involved? I'm also interested to know if you've worked on documenting the crosscutters process using a template (or fact sheet) for the admin record.

Thanks, Nancy

Nancy- You might reach out to the folks who are working on Class II LEAN permitting- Jason Meadows, Chris Tingey, Wendy Cheung, Kurt Hildebrandt come to mind immediately. There was a subgroup specifically focused on the ESA and NHPA processes.

**Subject:** Question on other federal acts for UIC Permitting

Hi all,

Do any regions have an example of a Memorandum of Understanding between federal agencies (EPA, BLM, or Army Corp of Engineers, etc) when EPA is not the lead agency for completing the Endangered Species Act (ESA) and National Historic Preservation Act (NHPA) processes? This would have articles on the purpose, authorities, roles & responsibilities of each party, responsibilities of all parties, and administration. I have an example of a MOU for completing NEPA, where EPA is administering the NPDES permitting process and is designated as a cooperating agency. However, I'm looking for any examples specific to UIC permitting to complete ESA and NHPA with multiple federal agencies involved.

Thanks, Nancy
